LILIES FROM SEED IN SEVEN MONTHS

Imagine! From a Seed to a Lily in 7 months. Yet this is what Dr. E. H. Wilson of the Arnold Arboretum reports as a result of trials. This Lily Seed can be planted in April or May and come into flower before the autumn frosts. Should you be late in getting them planted bring inside in pots for late fall or early winter blooming. Flowers are of purest white tinted with purple outside. **Very similar to the well known Easter Lily.** In fact, when planted in pots in July or August they will, under proper care, be **IN BLOOM BY EASTER.** The first flowering should be at least 2 or 3 of these beautiful, delightfully fragrant blooms. The second year they flower more freely, often with as many as 10 flowers on a single stem. These flower stems appear one after another two or three times a year from the same bulb. **NOT FOR SALE.**
